March 20, 2024

This Brochure provides information about the qualifications and business practices of MLDL Holdings, LLC. If you have any questions about the contents of this Brochure, please contact us at (281) 292-5900 or via email at daryl@contactjlf.com. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (“SEC”) or by any state securities authority.

MLDL Holdings, LLC dba John-Luke Financial, LLC (“John-Luke Financial”) is a Registered Investment Adviser. Registration of an Investment Adviser does not imply any level of skill or training. The oral and written communications of an Adviser provide you with information that you may use to determine whether to hire or retain them.

Additional information about John-Luke Financial is also available via the SEC’s website www.adviserinfo.sec.gov. You can search this site by using a unique identifying number, known as a CRD number. The CRD number for John-Luke Financial is 288252. The SEC’s web site also provides information about any persons affiliated with John-Luke Financial who are registered, or are required to be registered, as Investment Adviser Representatives of John-Luke Financial.

Item 2 – Material Changes

Since our last annual updating amendment filing on March 20, 2023, we do not have any material changes to our Form ADV Part 2:

In the future, this section of the Brochure will discuss only the specific material changes that were made to the Brochure and will provide you with a summary of all material changes that have occurred since the last filing of this Brochure. This section will also identify the date of our last annual Brochure update.

We will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year end which is December 31st. We will provide other ongoing disclosure information about material changes as they occur. We will also provide you with information on how to obtain the complete brochure. Currently, our Brochure may be requested at any time, without charge, by contacting Daryl Lazauskas at (281) 292-5900.

Item 4 – Advisory Business Introduction

Our Advisory Business

John-Luke Financial, LLC (“John-Luke Financial”, “us”, “we”, “our”) is a Registered Investment Adviser (“Adviser”) which offers investment advice regarding securities, insurance, and other financial services to clients.

We provide investment advice through Investment Adviser Representatives (“IAR”) associated with us. These individuals are appropriately licensed, qualified, and authorized to provide advisory services on our behalf. In addition, all IARs are required to have insert educational requirements such as: “a college degree, professional designation, or equivalent professional experience”.

John-Luke Financial was founded in 2017 by DEL Holdings. Daryl Lazauskas serves as Chief Compliance Officer. We provide management services to individuals, high net worth individuals, charitable organizations, small businesses. John-Luke Financial does not have a minimum account opening balance.

We are committed to the precept that by placing the client’s interests first, we will add value to the asset management process and earn the client’s trust and respect. We value long term relationships with our clients whom we regard as strategic partners in our business.

Services

We provide various asset management and financial planning services, with an emphasis on business and retirement planning and services. Our focus is on helping you develop and execute plans that are designed to build and preserve your wealth.

Asset Management

Asset management is the professional management of securities (stocks, bonds and other securities) and assets (e.g., real estate) in order to meet your specified investment goals. With an Asset Management Account, you engage us to assist you in developing a custom-tailored portfolio designed to meet your unique investment objectives. The investments in the portfolio account may include mutual funds, stocks, bonds, equity options, futures, etc.

We will meet with you to discuss your financial circumstances, investment goals and objectives, and to determine your risk tolerance. We will ask you to provide statements summarizing current investments, income and other earnings, recent tax returns, retirement plan information, other assets and liabilities, wills and trusts, insurance policies, and other pertinent information.

Based on the information you share with us; we will analyze your situation and recommend an appropriate asset allocation or investment strategy. Our recommendations and ongoing management are based upon your investment goals and objectives, risk tolerance, and the investment portfolio you have selected. We will monitor the account, trade as necessary, and communicate regularly with you. Your circumstances shall be monitored in quarterly and annual account reviews. These reviews will be conducted in person, by telephone conference, and/or via a written inquiry/questionnaire. We will work with you on an

ongoing basis to evaluate your asset allocation as well as rebalance your portfolio to keep it in line with your goals as necessary. We will be reasonably available to help you with questions about your account.

We will:

- Review your present financial situation
- Monitor and track assets under management
- Provide portfolio statements, periodic rate of return reports, asset allocation statement, rebalanced statements as needed
- Advise on asset selection
- Determine market divisions through asset allocation models
- Provide research and information on performance and fund management changes
- Build a risk management profile for you
- Assist you in setting and monitoring goals and objectives
- Provide personal consultations as necessary upon your request or as needed.

You are obligated to notify us promptly when your financial situation, goals, objectives, or needs change.

John-Luke Financial, LLC Investment Portfolio Strategy

We start with the end in mind, the need. We create a custom plan, implement the plan, and provide ongoing management of the plan. We use a bucket system as the plan. Once the need is established we back fill the buckets to solve for the need. Through the process the required asset value is established, the risk profile is established, and a selection of products are chosen creating a foundation for the plan.

You shall have the ability to impose reasonable restrictions on the management of your account, including the ability to instruct us not to purchase certain mutual funds, stocks or other securities. These restrictions may be a specific company security, industry sector, asset class, or any other restriction you request.

Under certain conditions, securities from outside accounts may be transferred into your advisory account; however, we may recommend that you sell any security if we believe that it is not suitable for the current recommended investment strategy. You are responsible for any taxable events in these instances. Certain assumptions may be made with respect to interest and inflation rates and the use of past trends and performance of the market and economy. Past performance is not indicative of future results.

If you decide to implement our recommendations, we will help you open a custodial account(s). The funds in your account will generally be held in a separate account, in your name, at an independent custodian, and not with us. We require Charles Schwab & Co. Inc. ("Charles Schwab") as the independent custodian for all accounts that we manage.

You will enter into a separate custodial agreement with the custodian which authorizes the custodian to take instructions from us regarding all investment decisions for your account. We will select the securities

bought and sold and the amount to be bought and sold, within the parameters of the objectives and risk tolerance of your account. You will be notified of any purchases or sales through trade confirmations and statements that are provided by the custodian. These statements list the total value of the account, itemize all transaction activity, and list the types, amounts, and total value of securities held. You will at all times maintain full and complete ownership rights to all assets held in your account, including the right to withdraw securities or cash, proxy voting and receiving transaction confirmations.

We manage assets on both a discretionary and a non-discretionary basis. If you give us discretionary authority, we can determine the following **without your consent**:

- Securities to be bought or sold for your account
- Amount of securities to be bought or sold for your account
- Broker-dealer to be used for a purchase or sale of securities for your account
- Commission rates to be paid to a broker or dealer for your securities transaction.

If we manage your accounts on a non-discretionary basis, we need your express consent prior to engaging in any of the activities described above.

Trading may be required to meet initial allocation targets, after substantial cash deposits that require investment allocation, and/or after a request for a withdrawal that requires liquidation of a position. Additionally, your account may be rebalanced or reallocated periodically in order to reestablish the targeted percentages of your initial asset allocation. This rebalancing or reallocation will occur on the schedule we have determined together. You will be responsible for any and all tax consequences resulting from any rebalancing or reallocation of the account. We are not tax professionals and do not give tax advice. However, we will work with your tax professionals to assist you with tax planning.

We are available during normal business hours either by telephone, fax, email, or in person by appointment to answer your questions.

Financial Planning/Consulting

We provide services such as comprehensive financial planning, estate planning, business planning and educational planning. Financial planning is a comprehensive relationship which incorporates many different aspects of your financial status into an overall plan that meets your goals and objectives. The financial planning relationship consists of face-to-face meetings and ad hoc meetings with you and/or your other advisors (attorneys, accountants, etc.) as necessary.

In performing financial planning services, we typically examine and analyze your overall financial situation, which may include issues such as taxes, insurance needs, overall debt, credit, business planning, retirement savings and reviewing your current investment program. Our services may focus on all or only one of these areas depending upon the scope of our engagement with you.

It is essential that you provide the information and documentation we request regarding your income, investments, taxes, insurance, estate plan, etc. We will discuss your investment objectives, needs and

goals, but you are obligated to inform us of any changes. We do not verify any information obtained from you, your attorney, accountant or other professionals.

If you engage us to perform these services, you will receive a written agreement detailing the services, fees, terms and conditions of the relationship. You will also receive this Brochure. You are under no obligation to implement recommendations through us. You may implement your financial plan through any financial organization of your choice.

We obtain information from a wide variety of publicly available sources. We do not have any inside private information about any investments that are recommended. All recommendations developed by us are based upon our professional judgment. We cannot guarantee the results of any of our recommendations. Choosing which advice to follow is your decision.

Wrap Fee

The Adviser does not sponsor or participate in a third-party sponsored wrap fee program.

Assets Under Management

As of December 31, 2023, we managed 634 accounts with \$87,188,224 in discretionary assets and \$83,904 in non-discretionary assets.

Item 5 – Fees and Compensation

We provide asset management services for a fee.

Either party may terminate the relationship with a thirty (30) day written notice. Upon termination of any account, any prepaid fees that are in excess of the services performed will be promptly refunded to you. Any fees that are due, but have not been paid, will be billed to you and are due immediately.

Asset Management Fee Schedule

We do not have a minimum account opening balance. The fee charged is based upon the total assets under management at John-Luke Financial, LLC. Multiple accounts of immediately-related family members, at the same mailing address, may be considered one consolidated account for billing purposes. Fees are charged monthly, in advance. Payments are due and will be assessed within the first two weeks of each month, based on the ending balance of the account under management for the preceding quarter. The quarters used for billing are the following: February – April, May – July, August – October, November – January.

Payments will be calculated as follows:

Percentage	Portfolio Size (AUM)
1.50%	\$0-\$500,000
1.25%	\$500,001-\$1,000,000
1.00%	\$1,000,001- \$5,000,000
0.75%	\$5,000,001-\$10,000,000
Negotiable	\$10,000,001+

The fees shown above are annual fees and may be negotiable based upon certain circumstances. No increase in the annual fee shall be effective without prior written notification to you. We believe our advisory fee is reasonable considering the fees charged by other investment advisers offering similar services/programs.

The advisor will prorate fees for clients who are taking income from their portfolios. E.G. prior balance \$100,000 and client's fee is 1% and client withdrawals \$5,000 per month: quarter 1 month one, the billing is the full normal bill at the previous statement's value, \$100,000 bill amount is \$83.33. Quarter 1 month two, the billing is done at \$95,000 bill amount is \$79.17, quarter 1 month three, the billing is done at \$90,000 bill amount is \$75.00. Then the next quarter prompts a new statement run and this process starts over.

The fees we charge can be deducted directly from your account at the custodian. We will instruct the custodian to deduct the fees from your account at the beginning of the month. This fee will show up as a deduction on your following monthly account statement from the custodian.

Financial Planning/Consulting Fees

We do not charge a separate fee for our financial planning services. The financial planning services we may offer will be incidental to our asset management services and will be detailed in your Advisory Agreement.

Based upon your needs, we may also provide consultations throughout the year to advise and counsel you about other financial issues. We can help you with transition planning, major transaction analysis, coordinated with cash flow needs, retirement needs, estate planning needs, income tax planning, life and disability insurance needs, investment needs, and college education planning.

All recommendations developed by us are based upon our professional judgment. We cannot guarantee the results of any of our recommendations.

Since the plan will be implemented through us, we will receive compensation as we will provide the advisory services recommended in the financial plan. The fees and expenses you pay for the purchase of our services may be more or less than the expenses you would pay if you attained investment advisory

and financial planning services from another investment advisory firm or broker-dealer and are typically determined by the broker-dealer or investment company offering the service. Therefore, a conflict of interest may exist between our interests and your interests since we may recommend services that pay us compensation. We may have an incentive to recommend particular services based upon the potential compensation rather than your needs. This potential conflict is addressed in our Code of Ethics.

Third Party Fees

Our fees do not include brokerage commissions, transaction fees, and other related costs and expenses. You may incur certain charges imposed by custodians, third party investment companies and other third parties. These include fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual funds, money market funds and exchange-traded funds (ETFs) also charge internal management fees, which are disclosed in the fund's prospectus. These fees may include, but are not limited to, a management fee, upfront sales charges, and other fund expenses. Certain strategies offered by us may involve investment in mutual funds and/or ETFs. Load and no load mutual funds may pay annual distribution charges, sometimes referred to as "12(b)(1) fees". These 12(b)(1) fees come from fund assets, and thus indirectly from clients' assets. We do not receive any compensation from these fees. All of these fees are in addition to the management fee you pay us. You should review all fees charged to fully understand the total amount of fees you will pay. Services similar to those offered by us may be available elsewhere for more or less than the amounts we charge. Our brokerage practices are discussed in more detail under Item 12 – Brokerage Practices.

Other Compensation

Daryl Lazauskas may receive additional compensation from sales of insurance products. Daryl Lazauskas may be eligible to receive incentive awards (including prizes such as trips or bonuses) for recommending certain types of insurance policies or other investment products that he recommends.

While Daryl Lazauskas endeavors at all times to put the interest of our clients first as part of our fiduciary duty, the possibility of receiving incentive awards creates a conflict of interest and may affect his judgment when making recommendations. We require that all IARs disclose this conflict of interest when such recommendations are made. Also, we require IARs to disclose that Clients may purchase recommended insurance products from other insurance agents not affiliated with us.

Item 6 – Performance Based Fee and Side by Side Management

We do not charge any performance-based fees. These are fees based on a share of capital gains on or capital appreciation of the assets of a client.

Item 7 – Types of Client(s)

We provide portfolio management services to individuals, high net worth individuals, charitable organizations, small businesses.

We have no minimum account opening balance.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Methods of Analysis

We start with the end in mind and calculate what each client needs to get to their end goal as part of our overall investment management discipline.

Investment Strategies

In order to perform this analysis, we use many resources, such as:

- Morningstar
- Financial newspapers and magazines (e.g. Wall Street Journal, Forbes, etc.)
- Annual reports, prospectuses, filings
- Company press releases and websites

The investment strategies we use to implement any investment advice given to you include, but are not limited to:

- Long term purchases -securities held at least a year
- Short term purchases - securities sold within a year

Risk of Loss

We cannot guarantee our analysis methods will yield a return. In fact, a loss of principal is always a risk. Investing in securities involves a risk of loss that you should be prepared to bear. You need to understand that investment decisions made for your account by us are subject to various market, currency, economic, political and business risks. The investment decisions we make for you will not always be profitable nor can we guarantee any level of performance.

A list of all risks associated with the strategies, products and methodology we offer are listed below

Alternative Investment Risk

Investing in alternative investments is speculative, not suitable for all clients, and intended for experienced and sophisticated investors who are willing to bear the high economic risks of the investment, which can include:

- Loss of all or a substantial portion of the investment due to leveraging, short-selling or other speculative investment practices
- Lack of liquidity in that there may be no secondary market for the fund and none expected to develop
- Volatility of returns
- Absence of information regarding valuations and pricing
- Delays in tax reporting
- Less regulation and higher fees than mutual funds.

Bond Fund Risk

Bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher yields of the risks associated with bond funds include:

- Call Risk - The possibility that falling interest rates will cause a bond issuer to redeem—or call—its high-yielding bond before the bond's maturity date.
- Credit Risk — the possibility that companies or other issuers whose bonds are owned by the fund may fail to pay their debts (including the debt owed to holders of their bonds). Credit risk is less of a factor for bond funds that invest in insured bonds or U.S. Treasury bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.
- Interest Rate Risk — the risk that the market value of the bonds will go down when interest rates go up. Because of this, you can lose money in any bond fund, including those that invest only in insured bonds or Treasury bonds.
- Prepayment Risk — the chance that a bond will be paid off early. For example, if interest rates fall, a bond issuer may decide to pay off (or "retire") its debt and issue new bonds that pay a lower rate. When this happens, the fund may not be able to reinvest the proceeds in an investment with as high a return or yield.

Fundamental Analysis Risk

Fundamental analysis, when used in isolation, has a number of risks:

- There are an infinite number of factors that can affect the earnings of a company, and its stock price, over time. These can include economic, political and social factors, in addition to the various company statistics.
- The data used may be out of date.
- It is difficult to give appropriate weightings to the factors.
- It assumes that the analyst is competent.
- It ignores the influence of random events such as oil spills, product defects being exposed, and acts of God and so on.

Modern Portfolio Theory (MPT) Risk

Modern Portfolio Theory tries to understand the market as a whole and measure market risk in an attempt to reduce the inherent risks of investing in the market. However, with every financial investment strategy there is a risk of a loss of principal. Not every investment decision will be profitable, and there can be no guarantee of any level of performance.

Cyclical Analysis Risk

Looking at market cycles in conjunction with other investment strategies can be useful when making investment decisions. However, market cycles are not always predictable. Each financial investment strategy has benefits and risks. Not every investment decision will be profitable, and there can be no guarantee of any level of performance.

Exchange Traded Fund ("ETF") Risk

Most ETFs are passively managed investment companies whose shares are purchased and sold on a securities exchange. An ETF represents a portfolio of securities designed to track a particular market segment or index. ETFs are subject to the following risks that do not apply to conventional funds:

- The market price of the ETF's shares may trade at a premium or a discount to their net asset value;
- An active trading market for an ETF's shares may not develop or be maintained; and
- There is no assurance that the requirements of the exchange necessary to maintain the listing of an ETF will continue to be met or remain unchanged

Insurance Product Risk

The rate of return on variable insurance products is not stable, but varies with the stock, bond and money market subaccounts that you choose as investment options. There is no guarantee that you will earn any return on your investment and there is a risk that you will lose money. Before you consider purchasing a variable product, make sure you fully understand all of its terms. Carefully read the prospectus. Some of the major risks include:

- **Liquidity and Early Withdrawal Risk** – There may be a surrender charges for withdrawals within a specified period, which can be as long as six to eight years. Any withdrawals before a client reaches the age of 59 ½ are generally subject to a 10 percent income tax penalty in addition to any gain being taxed as ordinary income.
- **Sales and Surrender Charges** – Asset-based sales charges or surrender charges. These charges normally decline and eventually are eliminated the longer you hold your shares. For example, a surrender charge could start at 7 percent in the first year and decline by 1 percent per year until it reaches zero.
- **Fees and Expenses** – There are a variety of fees and expenses which can reach 2% and more such as:
 - Mortality and expense risk charges
 - Administrative fees
 - Underlying fund expenses
 - Charges for any special features or riders.
- **Bonus Credits** – Some products offer bonus credits that can add a specified percentage to the amount invested ranging from 1 percent to 5 percent for each premium payment. Bonus credits, however, are usually not free. In order to fund them, insurance companies typically impose high mortality and expense charges and lengthy surrender charge periods.
- **Guarantees** – Insurance companies provide a number of specific guarantees. For example, they may guarantee a death benefit or an annuity payout option that can provide income for life. These guarantees are only as good as the insurance company that gives them.
- **Market Risk** – The possibility that stock fund or bond fund prices overall will decline over short or even extended periods. Stock and bond markets tend to move in cycles, with periods when prices rise and other periods when prices fall.
- **Principal Risk** – The possibility that an investment will go down in value, or "lose money," from the original or invested amount.

Mutual Funds Risk

The following is a list of some general risks associated with investing in mutual funds.

- **Country Risk** - The possibility that political events (a war, national elections), financial problems (rising inflation, government default), or natural disasters (an earthquake, a poor harvest) will weaken a country's economy and cause investments in that country to decline.
- **Currency Risk** -The possibility that returns could be reduced for Americans investing in foreign securities because of a rise in the value of the U.S. dollar against foreign currencies. Also called exchange-rate risk.
- **Income Risk** - The possibility that a fixed-income fund's dividends will decline as a result of falling overall interest rates.
- **Industry Risk** - The possibility that a group of stocks in a single industry will decline in price due to developments in that industry.

- Inflation Risk - The possibility that increases in the cost of living will reduce or eliminate a fund's real inflation-adjusted returns.
- Manager Risk -The possibility that an actively managed mutual fund's investment adviser will fail to execute the fund's investment strategy effectively resulting in the failure of stated objectives.
- Market Risk -The possibility that stock fund or bond fund prices overall will decline over short or even extended periods. Stock and bond markets tend to move in cycles, with periods when prices rise and other periods when prices fall.
- Principal Risk -The possibility that an investment will go down in value, or "lose money," from the original or invested amount.

Stock Fund Risk

Overall "market risk" poses the greatest potential danger for investors in stocks funds. Stock prices can fluctuate for a broad range of reasons, such as the overall strength of the economy or demand for particular products or services.

Technical Analysis risk

- Technical analysis is derived from the study of market participant behavior and its efficacy is a matter of controversy.
- Methods vary greatly and can be highly subjective; different technical analysts can sometimes make contradictory predictions from the same data.
- Models and rules can incur sufficiently high transaction costs.

Overall Risks

Clients need to remember that past performance is no guarantee of future results. All funds carry some level of risk. You may lose some or all of the money you invest, including your principal, because the securities held by a fund goes up and down in value. Dividend or interest payments may also fluctuate, or stop completely, as market conditions change.

Before you invest, be sure to read a fund's prospectus and shareholder reports to learn about its investment strategy and the potential risks. Funds with higher rates of return may take risks that are beyond your comfort level and are inconsistent with your financial goals.

While past performance does not necessarily predict future returns, it can tell you how volatile (or stable) a fund has been over a period of time. Generally, the more volatile a fund, the higher the investment risk. If you'll need your money to meet a financial goal in the near-term, you probably can't afford the risk of investing in a fund with a volatile history because you will not have enough time to ride out any declines in the stock market.

Item 9 – Disciplinary Information

Registered Investment Advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to your evaluation of us or the integrity of our management. We do not have any information to disclose concerning John-Luke Financial or any of our IARs. We adhere to high ethical standards for all IARs and associates.

Item 10 – Other Financial Industry Activities and Affiliations

Neither John-Luke Financial nor any of its management persons are registered as a broker-dealer or registered as a representative of a broker-dealer, nor does it have any pending application to register. In addition, neither John-Luke Financial nor its management persons are affiliated with any broker-dealer.

Other Financial Industry Affiliations

Daryl Lazauskas may recommend insurance products and may also, as an independent insurance agent, sell those recommended insurance products to clients. When such recommendations or sales are made, a conflict of interest exists as the insurance licensed IARs earn insurance commissions for the sale of those products, which may create an incentive to recommend such products. We require that all IARs disclose this conflict of interest when such recommendations are made. Also, we require IARs to disclose that clients may purchase recommended insurance products from other insurance agents not affiliated with us.

Daryl Lazauskas spends approximately 15% of his time in this capacity.

Item 11 – Code of Ethics, Participation or Interest in Client Accounts and Personal Trading

General Information

We have adopted a Code of Ethics for all supervised persons of the firm describing its high standards of business conduct, and fiduciary duty to you, our client. The Code of Ethics includes provisions relating to the confidentiality of client information, a prohibition on insider trading, a prohibition of rumor mongering, restrictions on the acceptance of significant gifts, the reporting of certain gifts and business entertainment items, and personal securities trading procedures. All of our supervised persons must acknowledge the terms of the Code of Ethics annually, or as amended.

Participation or Interest in Client Accounts

Our Compliance policies and procedures prohibit anyone associated with John-Luke Financial from having an interest in a client account or participating in the profits of a client's account without the approval of the CCO.

The following acts are prohibited:

- Employing any device, scheme or artifice to defraud
- Making any untrue statement of a material fact
- Omitting to state a material fact necessary in order to make a statement, in light of the circumstances under which it is made, not misleading
- Engaging in any fraudulent or deceitful act, practice or course of business
- Engaging in any manipulative practices

Clients and prospective clients may request a copy of the firm's Code of Ethics by contacting the CCO.

Personal Trading

We may recommend securities to you that we will purchase for our own accounts. We may trade securities in our account that we have recommended to you as long as we place our orders after your orders. This policy is meant to prevent us from benefiting as a result of transactions placed on behalf of advisory accounts.

Certain affiliated accounts may trade in the same securities with your accounts on an aggregated basis when consistent with our obligation of best execution. When trades are aggregated, all parties will share the costs in proportion to their investment. We will retain records of the trade Order (specifying each participating account) and its allocation. Completed Orders will be allocated as specified in the initial trade order. Partially filled Orders will be allocated on a pro rata basis. Any exceptions will be explained on the Order.

John-Luke Financial has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of "Access Persons". The policy requires that an Access Person of the firm provide the Chief Compliance Officer or his designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his designee with a written report of the Access Person's current securities holdings at least once each twelve (12) month period thereafter on a date the Adviser selects; provided, however that at any time that the Adviser has only one Access Person, he or she shall not be required to submit any securities report described above.

We have established the following restrictions in order to ensure our fiduciary responsibilities regarding insider trading are met:

- No securities for our personal portfolio(s) shall be bought or sold where this decision is substantially derived, in whole or in part, from the role of IARs of John-Luke Financial, unless the information is also available to the investing public on reasonable inquiry. In no case, shall we put our own interests ahead of yours.

Privacy Statement

We are committed to safeguarding your confidential information and hold all personal information provided to us in the strictest confidence. These records include all personal information that we collect from you or receive from other firms in connection with any of the financial services they provide. We also require other firms with whom we deal with to restrict the use of your information. Our Privacy Policy is available upon request.

Conflicts of Interest

John-Luke Financial's IARs may employ the same strategy for their personal investment accounts as it does for its clients. However, IARs may not place their orders in a way to benefit from the purchase or sale of a security.

We act in a fiduciary capacity. If a conflict of interest arises between us and you, we shall make every effort to resolve the conflict in your favor. Conflicts of interest may also arise in the allocation of investment opportunities among the accounts that we advise. We will seek to allocate investment opportunities according to what we believe is appropriate for each account. We strive to do what is equitable and in the best interests of all the accounts we advise.

Item 12 – Brokerage Practices

Factors Used to Select Custodians

In recommending a custodian/broker-dealer, we look for a company that offers relatively low transaction fees, access to desired securities, trading platforms, and support services. We require clients use Charles Schwab & Co. as the qualified custodian for their accounts when utilizing our asset management services.

Soft Dollars

We do not receive any soft dollars from broker-dealers, custodians or third-party money managers.

Best Execution

We have an obligation to seek best execution for you. In seeking best execution, the determinative factor is not the lowest possible commission cost but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, reputation and responsiveness. Therefore, we will seek competitive commission rates, but we may not obtain the lowest possible commission rates for account transactions.

Brokerage for Client Referrals

In selecting and/or recommending broker-dealers, we do not take into consideration whether or not we will receive client referrals from the broker-dealer or third party.

Directed Brokerage

We do not permit directed brokerage. We will require you to use the custodian of our choosing as the custodial firm.

Trading

Transactions for each client account generally will be effected independently, unless we decide to purchase or sell the same securities for several clients at approximately the same time. We may (but are not obligated to) combine or “batch” such Orders to obtain best execution, to negotiate more favorable commission rates or to allocate equitably among our clients’ differences in prices and commission or other transaction costs. Under this procedure, transactions will be price-averaged and allocated among our clients in proportion to the purchase and sale orders placed for each client account on any given day.

Transactions placed in an asset management account by a third party manager will be executed through their broker-dealer or custodian. In determining best execution for these transactions, the third party manager is looking at whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer’s services, including the value of research provided, execution capability, commission rates, and responsiveness. While they look for competitive commission rates, they may not obtain the lowest possible commission rates for account transactions. The aggregation and allocation practices of mutual funds and third party managers that we recommend to you are disclosed in the respective mutual fund prospectuses and third party manager disclosure documents which will be provided to you.

Item 13 – Review of Accounts

Reviews

Reviews are conducted at least annually or as agreed to by us. Reviews will be conducted by our Chief Compliance Officer Daryl Lazauskas. You may request more frequent reviews and may set thresholds for triggering events that would cause a review to take place. Generally, we will monitor for changes and shifts in the economy, changes to the management and structure of a mutual fund or company in which client assets are invested, and market shifts and corrections.

Reports

We do not provide any other statements except the one provided by your custodian, along with an invoice copy.

Item 14 – Client Referrals and Other Compensation

We do not receive any economic benefit from someone who is not a client for providing investment advice or other advisory services to our clients nor do we directly or indirectly pay any compensation to another person if they refer clients to us.

Item 15 – Custody

We do not have physical custody of any accounts or assets. However, we may be deemed to have custody of your account(s) if we have the ability to deduct your advisory fees from the custodian. We use Charles Schwab & Co. as the custodian and/or broker-dealer for all your accounts. You should receive at least quarterly statements from the broker-dealer or custodian that holds and maintains your investment assets. We urge you to carefully review such statements

We do not debit the client fees directly from your advisory account. We send information to your custodian to debit your fees and to pay them to us. You authorized the custodian to pay us directly at the onset of the relationship.

Item 16 – Investment Discretion

We usually receive discretionary authority from you at the beginning of an advisory relationship to select the identity and amount of securities to be bought or sold. This information is described in the Advisory Agreement you sign with us. In all cases, however, this discretion is exercised in a manner consistent with your stated investment objectives for your account.

When selecting securities and determining amounts, we observe the investment policies, limitations and restrictions you have set. For registered investment companies, our authority to trade securities may also be limited by certain federal securities and tax laws that require diversification of investments and favor the holding of investments once made.

Prior to assuming discretionary authority, clients must execute the Advisory Agreement. Execution of the Advisory Agreement grants us the authority to determine, without obtaining specific client consent, both the amount and the type of securities to be bought and sold to help achieve the client account objectives.

The third party money manager and/or custodians may have discretion over your account. The Advisory Agreement details this in full.

Item 17 – Voting Client Securities

As a matter of firm policy and practice, we do not have any authority to and do not vote proxies on behalf of advisory clients. You retain the responsibility for receiving and voting proxies for any and all securities maintained in your portfolios. We may provide advice to you regarding your voting of proxies. The custodian will forward you copies of all proxies and shareholder communications relating to your account assets.

Item 18 – Financial Information

We are required to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that would impair our ability to meet any contractual and fiduciary commitments to you, our client. We have not been the subject of any bankruptcy proceedings. In no event, shall we charge advisory fees that are both in excess of five hundred dollars and more than six months in advance of advisory services rendered.

Item 19 – Requirements for State Registered Advisers

Principals

There are two principals of John-Luke Financial, Maryanne Lazauskas and Daryl Lazauskas. Maryanne Lazauskas is a silent partner and does not provide investment advisory services. Daryl Lazauskas is the Chief Compliance Officer.

Performance Fees

We do not charge a performance-based fee (fees based on a share of capital gains on, or capital appreciation of, the assets of a client) for our normal asset management accounts.

Disclosable Events

Neither John-Luke Financial nor Daryl Lazauskas has reportable events to disclose here.

Other Relationships

Neither John-Luke Financial nor Daryl Lazauskas has any relationship with any issuer of securities.
